July 2nd 2021

Dear Parents and Carers

As we move towards the end of the year it is a good time for us to gather information that will help us to move the school forward and improve provision for the year to come.

It's been a challenging time but the staff have sought to offer the children a curriculum that supports their learning - both in lockdown and at school, fills in the gaps created by the uncertainty, and provide for children's mental health and wellbeing.

We couldn't have done this without your help and for that we are very grateful!

We have devised a simple survey for parents and carers to complete (children will also have a short survey in school), which will help us to focus on what has worked well and what needs further work to ensure we provide a broad and balanced curriculum which delivers the best provision for all our children regardless of need. It will also help us to steer a course through any further lock down should that occur in the new academic year.

The survey is online and will take 5 minutes. Please take time to access, answer and submit the survey from the link below and on our website under "General Letters" and add your own comments found in the last 2 questions (suggestions regarding the addition of multi-storey carparks and an underground train network will be taken in the spirit in which they are written!)

The survey goes live on Monday 5th of July at 9am [HERE](#) and needs to be completed by Friday 9th July at 6pm (please note you will not be able to submit any responses until the survey goes live on Monday). Please be assured that staff and governors look carefully at feedback from parents as this helps to shape our School Improvement Plan for the next few years.

Many thanks for your continued support of our school community.

**Mr. Mike Jee**
