

Year 3 - Monday 13th July 2020

Welcome to the last week of Home Learning before the summer holidays - we can not believe how quickly the time has gone.

Don't forget to upload any work to Google Classroom or send it to your teacher/s via email. We love seeing what you have been up to. Have a good week!

English

Reading

Read some of your reading book and write in your reading diary. Think about what you have read and write some questions that you could answer. Write your questions and your answers in your red book.

Spelling

Today we would like to you think about HOMOPHONES. These are words that sound the same, but have different spellings or meanings. Try to think of as many as you can and create a word search with them in.

English task

We have now finished gathering the information for our non-fiction book. Today we are going to create the contents page and the back cover. Have a look at the writing frame for the Contents Page and complete or create one of your own - your pages can go in any order that you like!
When you have finished this, have a look at the Back Cover writing frame and write a blurb, add a price and maybe even a quote from someone who has 'read' your book. Again you can either print out the template, or create one of your own.

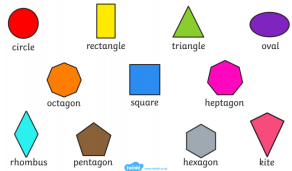

Maths

Mental maths

Play times table rock star **OR** Attack the times tables! Write all the answers to either the 3, 4 or 8 times table on post it notes or slips of paper and lay them on the floor. Get someone to ask you a times table and you can jump on the correct answer or shot them with a nerf gun etc. Or you could write them with chalk on the floor outside and shot them with a water gun. If there is no one who could ask you a question, write the questions on cards and turn them over one at a time or use playing cards. See the video on Google Classroom to help.

Maths task

2D shapes - Watch video <https://vimeo.com/432264925> Complete one of these tasks:
*The work sheet 'Recognise-and-describe-2D-shapes' on our website
* Create a picture using different 2D shapes. You could draw them with a ruler or draw around objects to help you with this. Write how many different shapes are in that picture.
* Describe shape to someone and they have to guess what shape you are describing e.g. it has four sides, two are longer than the other two, it has two parallel lines and two perpendicular lines, it has 4 right angles etc.
There is a 2D shape poster to help.

Other

Subject 1: PSHE

Beach Safety - IT is so important that we understand how to stay safe on the beach this year as they can be beautiful but dangerous places. Watch video <https://www.bbc.co.uk/programmes/p00gqvzf> You could do some more research online and then make up your own beach safety poster either with pencils and paper or on Google slides. The RNLI website has lots of useful information.

Subject 2: DT

It's now time to make your Roman Catapult! Yay!
Follow the instructions uploaded to the website to make either a pyramid or lever catapult and fill in page 5 of the design booklet. Then test out your catapult by firing your marshmallow and seeing how far it travels. Use a tape measure or ruler to measure the actual distance. Record your 3 distances on page 6 in the design booklet and then upload your best distance travelled to Google Classroom. Let's

	see who can get their marshmallow to travel the furthest! Please remember to have fun and be honest with your measurements!
PE 	To join in with the Virtual Sussex School Games , go to https://www.activesussex.org/virtual/ for all the videos and information. This week is Old Skool Sports Day . Don't forget to upload your scores by 12pm today! OR make up our own assault course for your family to try out.
Google Classroom	Upload how far your marshmallow travelled when fired from your catapult to Google Classroom. Remember to only upload your furthest distance travelled and then we can see who the winner is!

Your FINAL instalment of Home Learning will be on Thursday - Keep up the hard work!

Take care everyone x
