

A photograph of a dirt path winding through a dense, lush green forest. The path is covered in fallen leaves and leads into the distance. The trees are tall and have thick canopies, with sunlight filtering through the leaves. The overall scene is vibrant and natural.

Animal Habitats

A photograph of a forest stream with a small waterfall. The water is white and foamy as it flows over dark rocks. The surrounding forest is dense with trees, and the ground is covered in fallen leaves in shades of orange, red, and yellow, indicating autumn. The text is overlaid on the image in a bold, sans-serif font.

**A Habitat is a special
place where a plant or
animal lives**

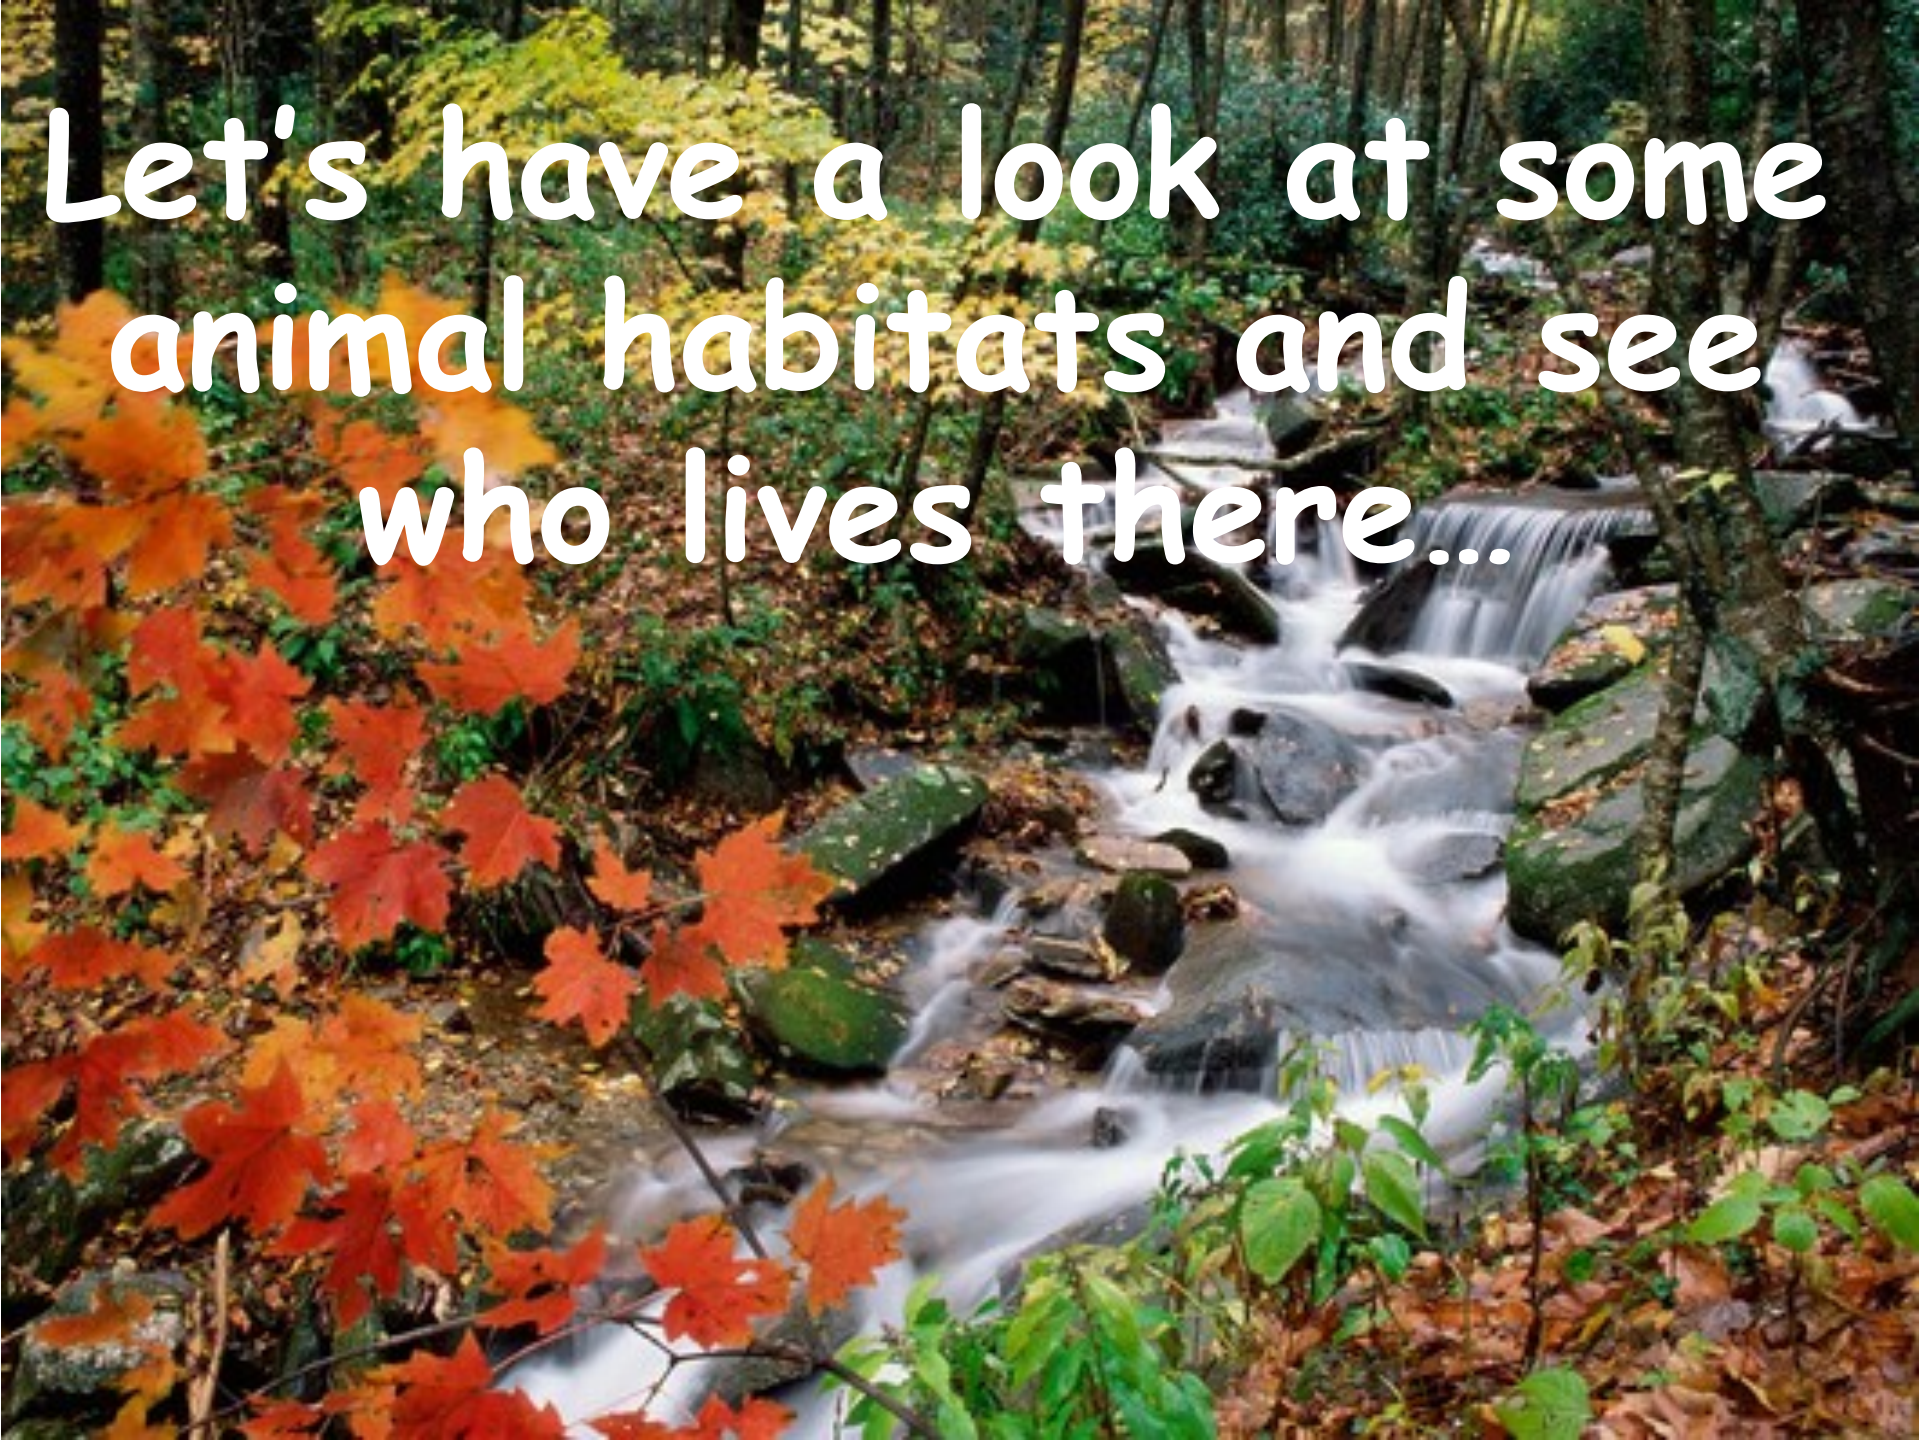

**Just like you have a
home and a place to live,
so do plants and animals.**

**An animal needs 5 things
to survive in it's habitat:**

- **Food**
- **Water**
- **Cover (shelter)**
- **Space**
- **A place to raise it's young**

Let's have a look at some
animal habitats and see
who lives there...

pond

house

farm

Click on a habitat to see who lives there.

hedge

sea

wood

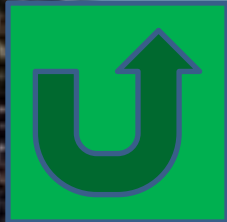

These animals live in a hedge. Can you name them?
