

Tuesday 2nd June

Yay, it's officially the summer! We hope you had a lovely half term, enjoyed some sunshine and are keeping up a healthy routine. Remember to show us what you've been up to on SeeSaw. We love seeing and hearing from you. We'll share photos and videos if you put that you want us to.

Reading

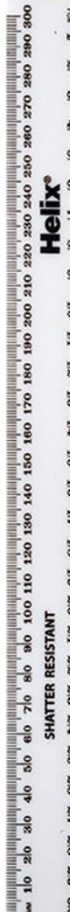

How are you getting on with your reading? We're sorry we can't give out or exchange books at the moment, but remember you can borrow eBooks and lots of other things from West Sussex Library services at arena.westsussex.gov.uk or look at what's on offer on the attachment. Please show and tell us what you have been reading and why you like it.

English

Can you use the strategies you learnt to spell 'beautiful' to spell the words 'could', 'would' and 'should'? (Watch a video about this on Seesaw).

Maths

This week we are thinking about **Measuring length**.

This activity is also explained on Seesaw:

'Measuring Length part 2'.

Can you remember what we use?

Ruler, tape measure, metre stick.

Can you remember what units we measure in?

Millimetres (mm) centimetres (cm) metres (m) and kilometres (km)

Find some (smallish) things in your home or garden to measure. Remember, they need to be under a metre or you may have problems measuring them!

Estimate how long you think they are first in **cm**.

Record your estimate in your book or on the attached sheet. Then **carefully measure** it with your ruler or tape measure **to the nearest cm**. Record it and see how close your estimate was.

Remember this will hopefully help you make more accurate estimates as you do more objects.

Faith and Wonder

The Bible says there are 3 important things in life: Love, Faith and Hope.

Hope is BELIEVING GOOD THINGS WILL HAPPEN.

www.youtube.com/watch?v=Wbfp7fzhj4Y&frags=wn&safe=true

Click the link above and watch the story of Noah's Ark.

Then, with your adult talk about these questions...

- How do you think Noah, his wife and family stayed HOPEFUL when they were trapped on the boat for 40 days?
- How do you think they kept busy?
- God uses the Rainbow to show he will keep his promise not to flood the world again. Where do we see pictures of a rainbow at the moment? What are they for?

We are a bit like Noah and his family at the moment. We are facing something tricky but we are staying hopeful.

PE

Click on the link to the song 'Movin' On Up'.

It is a song full of HOPE.

Turn it up loud and have a good dance to it!

Science

Lots of creatures are out and about now during the summer. Have a look at the **Animal Investigator Poster** by opening the website bp.com/bpes

Click on 'Enter a student code' (top right on all pages if you are not logged in). Then enter the student code:

[12924](#)

Can you answer the questions on the poster?
