

Thursday 21st May

Goodness! This term is zipping by so fast! You are all doing so brilliantly.  
Us teachers are so impressed with you all ...and missing you lots!

Reading

How have you got on remembering one thing from your daily read? Has it made you pay more attention to what you are reading?  
When you read today imagine, you're the main character. Stop every so often and think about what YOU would do as the main character. Would you do the same as the character in the story or would you do things differently?

English

Today we're thinking about the word **beautiful**. It's a tricky word to spell. Watch the video on Seesaw to give you some strategies to help learn how to spell it!

Now can you write a sentence with **beautiful** in it and remember how to spell it?

Maths

Carry on using the cards that you made to practise **either** your **10** or **2** or **5** times table.  
Or use one of these online games to practise your tables:

<https://www.topmarks.co.uk/maths-games/hit-the-button>  
<https://www.topmarks.co.uk/times-tables/coconut-multiples>  
<https://www.ictgames.com/mobilePage/bunny/index.html>  
<https://www.ictgames.com/tablesTennis/mobile/index.html>

The last one is a 2-player game.

**Remember to choose the correct times table to practise: 10x, 2x or 5x.**

School Values

Our focus value this half term is KINDNESS.  
Can you draw a picture showing an act of kindness?  
It could be you being kind to someone or someone being kind to you.

## PE

Remember to have a go at the activities in the virtual games.

<https://www.activesussex.org/virtual/#>

Put on one of your favourite songs and have a dance round the room!

## Science

Print off the attached Mouse Rocket sheet. Follow the instructions to make your own Mouse rocket.

Make it a colourful mouse if you want to!

How high can you get the mouse to fly?

Does he fly *higher* with a *bigger* plastic milk carton (a 6pint if you have one)?

What happens with a *smaller* plastic milk carton? (a 2pint one)?

Does it work with any other type of empty bottle?

Can you explain *how* it works?

*Why don't you upload a video to SeeSaw to show us what happened or tell us what you found out?*

**Challenge:** Can you find out how many litres your milk bottle holds?

It's been wonderful that a few children have posted videos on SeeSaw to say 'hi' to their friends in Cherry and Willow Class. It'd be lovely if more of you could do the same. I know your friends are really missing you and it would make their day just to see your face!

If you start your video by saying "Hello Year 2" or "Hi Cherry"/"Hi Willow" or "Hiya friends" then your teacher will know that you want everyone to see it and will share it with the class.
