

Year 1 Maths Overview

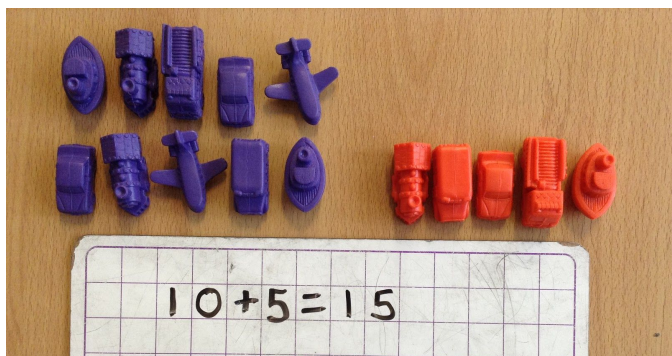

In Year 1 we have been learning the following...

Addition

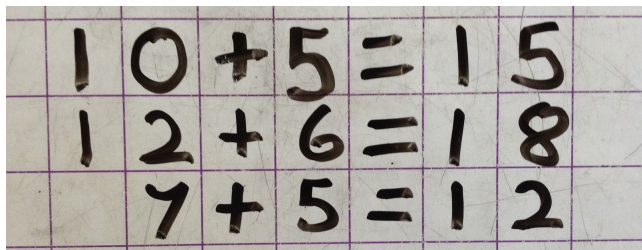

Annie Add +

We have been adding two amounts below 20 using objects to count.

We have been learning how to write addition number sentences on squared paper with each number or sign in its own square.

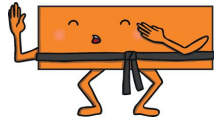

We have learnt how to add using a number line.

We circle the largest number in the number sentence and jump on like Freddie Frog above the number line. We circle the number we land on and then finish writing the number sentence.

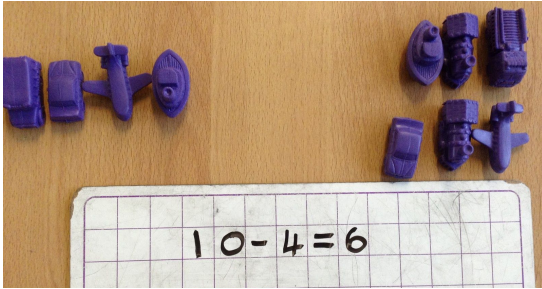

Subtraction

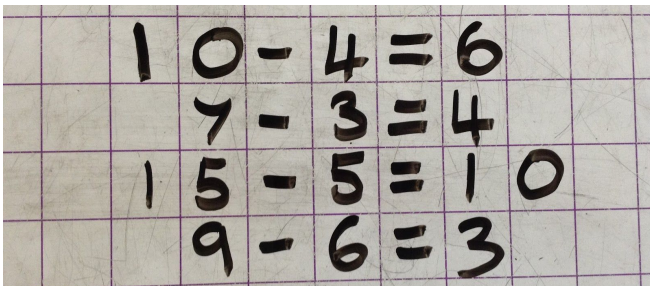

Sammy Subtract -

We have been subtracting by using objects and taking them away.

We have been learning how to write subtraction number sentences with the largest number first on squared paper with each number or sign in its own square.

We have learnt how to subtract using a number line.

We circle the largest number in the number sentence and jump back like Matty Mole under the number line. We circle the number we land on and then finish writing the number sentence.
